MONDAY, 8th FEBRUARY
to SATURDAY, 13th FEBRUARY 1937

An Exhibition of Photographs

depicting Wild Life and Scenery in the

NATIONAL PARKS of CANADA

organised by

HARPER CORY, F.C.G.S.

with the co-operation of the

National Parks Branch, Department of the Interior, Ottawa.

“National Parks are maintained for all the people—for the ill, that they may be restored ; for the well, that they may be fortified and inspired by the sunshine, the fresh air, the beauty and all the other healing, ennobling and inspiring agencies of Nature. They exist in order that every citizen of Canada may satisfy his soul-craving for Nature and Nature’s beauty ; that he may absorb the poise and restfulness of the forests ; that he may steep his soul in the brilliance of the wild flowers and the sublimity of the mountain peaks ; that he may develop in himself the buoyancy, the joy and the activity he sees in the wild animals ; that he may stock his brain and his mind as he would a warehouse, with the raw material of intelligent optimism, great thoughts, noble ideals ; that he may be made better, happier and healthier.”

J. B. HARKIN,

Commissioner, National Parks of Canada.

(Quoted from a National Parks Branch publication).

Three Fascinating and Authoritative Books on
CANADIAN WILD LIFE

(Uniform 2/6 net each.)

Grey Owl and the Beaver

HARPER CORY.

"A story which everyone will wish to read . . . Harper Cory knows his subject and loves it ; he writes with freshness and enthusiasm ; with admiration for Grey Owl, and a high appreciation of the scientific accuracy of his work and its value . . . A book for all lovers of animals."—*Animals Friend*. With eight photographs.

2s. 6d. net.

Lovable Beasts

HARPER CORY.

Seven of the best of Mr. Harper Cory's famous animal stories—the Porcupine, the Coyote, the Pine Marten, the Skunk, the Black Bear, the Moose and the Canada Goose. With new pictures specially drawn by W. Neave Parker—a book to amuse and interest old and young readers alike.

2s. 6d. net.

Guardians of the Wild

MABEL B. WILLIAMS.

The story of the Canadian National Parks—how the animals are protected, how the curators work, how the highways are built, and much else besides, including a number of real life stories of the animals the author knows so well. With many photographs.
